

## Activated Carbon Filter Media

### PRODUCT FEATURES

- ▶ Material :high-quality catalytic powdered activated carbon.
- ▶ Shapes are customizable for various air conditioning system and purifiers.

### USING

- ▶ Purify malodorous substances in the air, such as benzene, methanol, ammonia, carbon dioxide, and harmful gases NO<sub>2</sub>, SO<sub>2</sub>, etc. It is suitable for various air conditioning and ventilation systems, which can effectively remove pollution and clean air.

### TECHNICAL DATA

<b>Standard Size</b> (roll) (m)	1.0 x 20 1.2 x 20 2.0 x 20
<b>Normal Thickness</b> (mm)	3 / 5 / 8 / 10 / 15
<b>Weight</b> (g)	220/300/400/500/550
<b>Benzene Adsorption</b>	≥25%

<b>Wind Speed</b> (m/s)	0.8
<b>Rated Air Flow</b> (m <sup>3</sup> /h)	2880
<b>Initial Prssure Drop</b> (Pa)	55
<b>Final Prssure Drop</b> (Pa)	250
<b>Max Operating Temperature</b>	normal temperature
<b>Carbon Content</b>	≥50% Customizable on Request

★ Data may change without notice. Other specifications and thickness are available on request.
